

Immunization Policy

1. The immunization policy follows the codes and laws established by the State of Indiana.
2. Parents or guardians must provide the school with documentation of immunization and students must be current with immunization. Documentation of immunizations consists of submitting a photocopy of the student's immunization records. This can be submitted to the office or directly faxed from your physician's office or from a previous school.
3. Student immunizations must be up-to-date and documentation submitted to the school by the first day of school, or the student may not be permitted to attend class.
4. Indiana law provides exemption to immunization for religious or medical objection. A religious exemption requires a written statement signed by the parent objecting to each immunization. A medical exemption requires a physician signature recommending exemption based on medical condition.
5. Forms are available in the health clinic. Religious waivers must be renewed each school year prior to the first day of school.
6. If your student requires a catch-up schedule, please contact the school nurse to coordinate spacing and scheduling of immunizations.
